Dear Mr. Haddock:

**RE: Division Order Deficiencies**

We have received your letter outlining the deficiencies to comply with Division Order, which was received when NOV N92-37-1-1 was vacated. We have the following responses to the deficiencies:

1. Utah Fuel Co. should reword page 4-45 to indicate the years in which annual revegetation analysis was reported to the Division.

Response:

This same deficiency is listed in the deficiency letter for the overland conveyor amendment. Utah Fuel commits to reword Page 4-45 to indicate the years in which annual revegetation analysis was reported to the Division in the deficiency response letter for the overland conveyor.

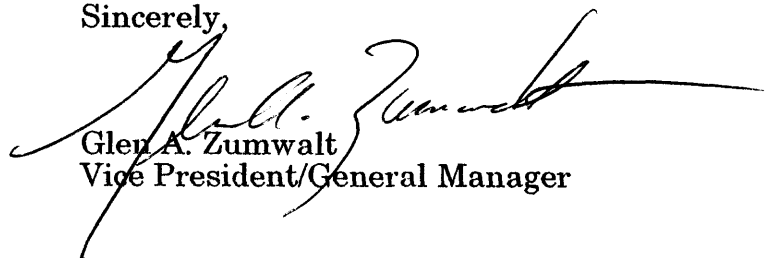

2. At a minimum, page 4-45A should clearly state that visual evaluations of all experimental practices and trials being conducted will be reported in the Annual Report.

Response:

Fourteen copies of revised page 4-45A are attached.

We feel this information should satisfy the Division Order.

Sincerely,

Glen A. Zumwalt  
Vice President/General Manager
